Any other access routes will need to be installed and/or maintained according to all North Carolina Best Management Practices. All existing roadways must be left in similar condition, reasonable wear and tear accepted, at the completion of the harvesting operation as they were at the beginning of the harvesting operation. Call W.H. Lock if you have any questions concerning access routes.

3. The Buyer is responsible for maintaining a clean site. No equipment parts, trash, tires or other debris shall be left on the property as a result of the harvesting operation. It shall be the Buyer's responsibility to clean up any hazardous material or chemical waste spills including but not limited to Diesel Fuel, Hydraulic Fluid, Machine Oil, and/or Gasoline upon the subject property if they resulted from the harvesting operation. Responsibility will include any required remediation including but not limited to the removal of contaminated soils. Harvesting operations must not interfere with any farming operations and farming and/or hunting activities must not interfere with any harvesting activities. Decking, loading or hauling will not be permitted in any existing open fields or pastures immediately adjacent to the timber unless approved by William H. Lock & Associates, Inc. If approved, open areas must be free of logging debris, smoothed when completed, and re-seeded if necessary.

No trees or other logging debris shall be left in or across the property boundary, sale cutting lines or access roads.

5. The tract has been recently surveyed and the outside perimeter lines are flagged orange and painted yellow. (NOTE: The interior “out” parcel was disputed but agreed boundaries have now been established. The orange flagging is correct for this parcel and the yellow paint is incorrect.) No flagged or painted trees denoting the property and/or sale boundary shall be cut and no trees outside the boundary lines shall be cut. If trees marking the property lines or sale boundary are cut, North Carolina timber trespass laws may apply. No trees shall be cut to fall on a neighboring landowner's property or where potential damage may occur. If existing property corners are damaged or removed as a result of the harvesting operation, Buyer agrees to replace the markers at the correct surveyed location at their expense.

The buyer and/or logger must complete a pre-harvest inspection with WHL & Associates prior to beginning any logging activity.

7.
